VB6451W WiFi Mini Bullet Camera

**2MP Full HD 1080p**

**VIDEOTEKNIKA**

## Overview

VIDEOTEKNIKA VB6451W is a versatile, fully cable managed, fixed mini bullet camera designed for outdoor applications with a 2 Megapixel sensor enabling a viewing resolution of 1920 x 1080 (Full HD 1080p Real Time). The outdoor True Day & Night camera provides superior quality video in the most extreme low light conditions upto 30 metres with an additional feature of IR-cut filter with auto-switch (ICR). The VB6451W features a 3-Axis adjustment bracket. The camera incorporates a 1/3" CMOS chip with progressive scan technology enabling sharp images in highly populated locations. The VB6451W also supports POE.

## Supported Compression

The VB6451W supports MJPEG compression technology, a digital video encoding standard where each video frame is separately compressed into a JPEG image. The VB6451W also supports MPEG-4, a further development of MPEG-2 designed for transmitting audiovisual data at very low transfer rates MPEG-4 is a digital video encoding and compression standard that uses interframe encoding to significantly reduce the size of the video stream being transmitted. The VB6451W also supports the industry standard H.264 compression, the most recent compression technology that reduces drastically video file sizes therefore allowing for better storage and lowers bandwidth demands.

## Dual Streaming

The VB6451W allows for dual independent streaming images to pass through the video coder. The resolution, frame rate and bit rate can be set independently on both streams. The main application for dual streams allows for high resolution and high frame rate streaming for recording while allowing lower resolution and frame rate for computer browsing and mobile device applications.

## Supported Software

The Camera is supported by the Videoteknika VVMS-*Xpert*™ VMS. The VVMS-*Xpert*™ VMS is a modular Video Management Software dedicated for Videoteknika IP cameras expandable up to 1024 Channels per server. A 64 Ch version VVMS-*Advanced*™ is supplied as a free bundled software with all Videoteknika IP Cameras. VVMS-*Mobile*™ is also available on Iphone and Android applications. Videoteknika IP cameras are supported by various leading software development VMS partners.
